

Installation examples for the use of the TKM beam clamp

Bracket arm for pipes, etc.

Installation of a bracket console

Quick fixture of a cable channel

The connecting principle

Simple pipe guidance on steel beams

e.g.
Installation
of pipes and
cable trays
by clamps or
by bearing
bracket on
the
stationary
support

The only installation tool needed to
attach to the beam:
"1 x 500 g hammer... nothing else!"

Installation examples for the use of the TKM beam clamp

Pipe fastening on rising steel beams for here example to 30 degrees

System fastening massive,
VdS and FM conform
